

**HELP RAISE
\$150,000 TO
SAVE THE
NEXT 135
LIVES!**

Dear Friend,

Women facing crisis pregnancies often turn to abortion because they think its their only option. I want to share the experience of a woman who had the opportunity to hear the truth spoken in love!

Pregnant and overwhelmed, Cassie contemplated her situation.

Her boyfriend said he loved her but wasn't "ready" to commit. Her job barely paid the bills. She was in college, and her parents wanted her to have an abortion. The pressure of her circumstances weighing on her, she felt completely alone. **All alone...except for the tiny baby that grew inside of her.**

She nervously told the Coastal Choices nurse on the video call she **needed** an abortion. She had expected cold judgment, but instead **she experienced warmth, understanding, and compassion.**

The nurse gently reminded her that abortion was a permanent, life-altering decision. It was not to be entered into lightly. The professional, kind words of the nurse calmed Cassie. **She agreed to come in that afternoon for a free ultrasound.**

Even though she did not want to see her baby at first, there was something that stirred inside of her when the nurse asked her. That something was the undeniable bond of mother and baby! As she watched the tiny heart beating on the screen, **Cassie realized that she wasn't alone; she had Coastal Choices!** Knowing she wasn't alone gave her the confidence to choose life!
